## ABOUT THE ORGANIZATION

This belief led us to form a new strategic plan for saving wildlife that are suffering declines across America, with the goal of increasing America's fish and wildlife populations and enhancing their capacity to thrive in a rapidly changing world. The plan sets in motion a Common Agenda for Wildlife built upon sound science, clear priorities, and scalable solutions.

Our Common Agenda includes a commitment to: **Protect, Restore, and Connect Wildlife Habitat:** Active restoration and reconnection of fragmented and degraded habitat across protected lands, working lands, waterways, coasts, and communities **Transform Wildlife Conservation:** Advancing 21st century wildlife management, defending public trust resources, and confronting emerging stressors like climate change, invasive species, and wildlife diseases **Connect Americans with Wildlife:** Inspiring the next generation of conservationists and mobilizing a diverse conservation army to broaden the Stewardship ethic, conservation action, public and private investments, and support for policy changes necessary to save thousands of at-risk species in our time.
